2013 ACM Southeast Conference
Call for Papers
http://cs.armstrong.edu/acmse2013

As the ACM’s oldest continuously running annual conference, the ACM Southeast Conference celebrated its 50th year in 2012. The 51st annual gathering will be held in historic Savannah on April 4-6, 2013. The ACMSE Conference provides a forum in which both faculty and students can present their research in a friendly and lively atmosphere. Authors are encouraged to submit original work for peer review in one of the categories listed below. Submissions in all areas of computer science are invited. The conference proceedings will include accepted regular papers, student papers, extended abstracts of regular posters and student posters, as well as synopses of workshops and tutorials. Awards will be given for the best student paper and best student poster. All submissions will be handled using EasyChair: http://www.easychair.org/.

Important Dates
Call for papers: November 20, 2012
Call for papers: November 20, 2012
Deadline for All Submissions: January 25, 2013 – by 11:59 PM EST
Deadline for All Submissions: January 25, 2013 – by 11:59 PM EST
Decisions to Authors: February 22, 2013
Decisions to Authors: February 22, 2013
Revised Camera Ready Papers Due: March 4, 2013
Revised Camera Ready Papers Due: March 4, 2013
Conference Dates: April 4-6, 2013
Conference Dates: April 4-6, 2013

Regular Papers and Student Papers
-------------------------------------------------------------
Regular and student papers must describe original, previously unpublished work not being simultaneously considered for publication elsewhere, in basic or applied computing research or computing education. Students must be the sole authors of submissions in the student paper category. Both regular and student papers must be submitted in PDF format, and may be up to six pages in length using the ACM conference format. All regular and student papers will be subject to peer review. Accepted papers will be presented at the conference and published in the conference proceedings. An award will be made for the best student paper.

Regular Posters and Student Posters
-------------------------------------------------------------
Regular posters present an overview of already developed research or work in progress. Undergraduate and graduate students may submit an extended abstract (as sole authors) presenting preliminary findings of their research. Poster submissions are extended abstracts limited to two pages in length and will be reviewed by the Program Committee. Accepted abstracts will be presented in a poster format and published in the conference proceedings. An award will be made for the best student poster.

Workshops/Tutorials
-------------------------------------------------------------
Proposals for workshops and tutorials should include a title, abstract, statement of purpose, objectives, prerequisites, intended audience, duration (1.5 or 3 hours), materials needed (including lab space) and resources to be handed out. Proposals should not exceed two pages. Additional details to be posted at the conference web site: http://cs.armstrong.edu/acmse2013.
