**SALES ASSOCIATE or ENGINEER
(HVAC)
Lake City, FL**

United McGill Corporation is a family-owned company, founded in 1951 in Columbus, OH. We are a medium size company with annual sales of about \$50 million. With headquarters in Columbus, OH, we have a nationwide team of about 400 associates.

We operate nine manufacturing plants and more than 40 sales engineering offices throughout the United States. The Company has five operating subsidiaries and each has been active for decades.

This position is located in McGill AirFlow LLC, which is one of the country's leading suppliers of commercial and industrial sheet metal ductwork and with an extensive line of products, including round, flat oval, and rectangular ductwork and related items. We have facilities nationwide.

The individual will sell industrial and commercial air handling products and related services, based out of a home office, covering Gainesville, Jacksonville, and west to Tallahassee. This position can be located in Lake City area. The duties include calling on contractors, industrial plants and consulting engineers, arranging, presenting product and technology seminars, preparing proposals, and managing projects.

The job requires successful sales experience in the construction industry, proficiency at using computers, and excellent communication & presentation skills. Travel away from the office will average about 80% of the workweek. A bachelor's degree is preferred.

The Company offers a competitive salary, incentive and benefits program including: medical, dental, & vision care, Flexible Spending Accounts (FSA), paid time off (PTO) and paid Holidays, 401(k) Plan with Company match, paid disability and life insurances, and educational assistance.

For further information about our Company and available positions, please refer to our web site at www.unitedmcgill.com. Interested candidates should forward a resume and cover letter with salary history to:

United McGill Corporation
