CSCI 2070- Introduction into Ethics/Cyber Security

Homework

Due date: 2/23/2017

Critical thinking includes the component skills of analyzing arguments, making inferences using inductive or deductive reasoning, judging or evaluating, and making decisions or solving problems. Background knowledge is a necessary but not a sufficient condition for enabling critical thought within a given subject. Critical thinking involves both cognitive skills and dispositions. These dispositions, which can be seen as attitudes or habits of mind, include open and fair-mindedness, inquisitiveness, flexibility, a propensity to seek reason, a desire to be well informed, and a respect for and willingness to entertain diverse viewpoints. There are both general- and domain-specific aspects of critical thinking.

Write a two-page paper that discusses the above topic. Your paper will be judged based on authenticity, quality of writing and the presentation of information to the reader (Instructor). The paper should include all the resources that were used to help you in writing this paper, such as articles, online information, books, conference proceeding papers, all of these should be cited in your paper.

100 points
